

DELIVERING THE FUTURE

**TCF SOURCING SOLUTIONS BY CONSULTATION**  
**- the TCF Way to solve your supply chain issues!**

*TCF SOURCING SOLUTIONS offers a cost effective solution to import sourcing and supply chain development. Our extensive senior management experience in building profitable garment import businesses will radically improve your product quality, on time deliveries and supply chain relationships through better communication, staff development and reliable processes.*

- In our intense initial diagnosis we work with you and your staff to identify the issues from which we can mutually agree to an implementation plan and timeline.
- This is followed up by weekly mentoring meetings to implement new procedures, undertake staff training and deal with any further issues that may have arisen to keep the business model transformation on track as per the agreed implementation plan.

**Supply Chain Solutions**

- Achieve high quality imported garments by developing and implementing the required disciplines.
- Improve early sample success by communicating more effectively with factories using our individually tailored manual.
- Let us help you to achieve quicker decisions from customers and quicker service from suppliers by establishing an effective system of checks and balances.
- Ensure on time delivery by allowing us to develop and implement effective timeline management processes.
- Enjoy clean and clear communication with your overseas suppliers.
- We can also locate and recommend reliable suppliers for your specific garment needs.

**Staff Development**

- Increase sell through, with staff that, with our assistance, can create and implement product merchandising strategies that work.
- Enjoy improved quality and on time delivery with staff trained in quality assurance and logistics.
- Resolve production issues with suppliers and customers with staff trained in effective communication.
- Hire the right staff first time with our innovative job description, interviewing and employment agreement processes.
- Give your new and existing staff the best chance to excel with effective training and documented work flow manuals.
- Help your staff to achieve on time delivery by following processes that secure timely approvals from customers during the production process.
- Improve your staff's negotiating skills and the quality of your relationship with your overseas suppliers.
